
Engaging and productive meetings

Microsoft Surface Hub reimagines the meeting experience so that you can unlock the power of the group. You can walk up and join a Skype for Business meeting with a single tap, and share content effortlessly, so that you spend your time connecting to people rather than technology. And since you can easily send meeting notes and content, you can communicate outcomes and action points.

Scheduled or spontaneous

Schedule meetings in advance with Skype for Business or invite remote attendees ad hoc when you want to bring them into the discussion.

One-touch meeting start

Start meetings on time with a tap of the screen. End your session with an option to save and send meeting content to the group for later use.

Easy to share content

You can easily share content from laptops, tablets, or phones. With inkback™ and touchback™, your changes will appear on compatible personal devices.[1]

Engaging for everyone

Everyone can see content and contribute equally no matter where they are. Clear sound and high-quality video make meetings great.
